

JUST A FARMER

Screening Packages

Strengthen Community Bonds with Just a Farmer

Just a Farmer isn't just a film—it's a chance to ignite important conversations about mental health and build community resilience. The film reveals the universal impact of mental health on families and communities, emphasizing the need for support and understanding. Hosting a screening helps connect people, foster empathy, and promote positive change.

A dramatic feature film

WHAT PEOPLE ARE SAYING

"Everyone should see this movie. It's not a sob story about how hard farmers life is, rather it shows how a family and communities can unravel if we don't watch out for each other. It is not your "happy ever after" film but please avail yourself of the opportunity to see this masterpiece". - Neil Hayes

"Just a Farmer" is storytelling at its best. But the reality is that it's a story based on real-life. That's why a film like Just a Farmer is so important. It helps start conversations, raises awareness about mental health challenges and the social determinants that lead to suicide, and helps reduce the stigma around talking about all of this. If you haven't watched "Just a Farmer" yet, please do yourself a favour and experience it". - Jennifer Waltmon
